

## **Safeguarding and Welfare Requirement: Health**

Providers must ensure there are suitable hygienic changing facilities for changing any children who are in nappies.

### **6.4 Nappy changing**

#### **Policy statement**

No child is excluded from participating in our setting who may, for any reason, not yet be toilet trained and who may still be wearing nappies or equivalent. We work with parents towards toilet training, unless there are medical or other developmental reasons why this may not be appropriate at the time.

We provide nappy changing facilities and exercise good hygiene practices in order to accommodate children who are not yet toilet trained.

We see toilet training as a self-care skill that children have the opportunity to learn with the full support and non-judgemental concern of adults.

#### **Procedures**

- Our key persons are aware of which children are still in nappies, and change nappies or 'pull-ups'; according to the child's needs.
- Other members of staff are informed when a child needs changing, the staff member takes them to the changing area, the door is left open so checks can be regularly made, we ensure the child's dignity and privacy are adhered to at all times.
- Our key persons undertake changing children; another member of staff will change them if the key person is absent.
- Each child has their bag brought in from home with their own nappies or pull ups and changing wipes.
- Our staff put on gloves and aprons before changing starts and the areas are prepared. The changing mats are cleaned with anti-bacterial wipes after every use.
- All our staff are familiar with our hygiene procedures and carry these out when changing nappies.
- Our staff never turn their back on a child or leave them unattended whilst they are on the changing mat.
- We are gentle when changing; we avoid pulling faces and making negative comments about 'nappy contents'.
- We do not make inappropriate comments about children's genitals when changing their nappies.
- In addition, we ensure that nappy changing is relaxed and a time to promote independence in young children.
- We encourage children to take an interest in using the toilet.
- We encourage children to wash their hands, and have soap and towels to hand. They should be allowed time for some play as they explore the water and the soap.

- We do not use anti-bacterial hand wash liquid or soap for young children; young skin is quite delicate and anti-bacterial products kill off certain good bacteria that children need to develop their own natural resistance to infection.
- Older children access the toilet when they have the need to and are encouraged to be independent.
- Any soil (faeces) in nappies or pull ups is flushed down the toilet and the nappy or pull up is bagged and sent home for disposal. Cloth nappies, trainer pants and ordinary pants that have been wet or soiled are rinsed and bagged for parents to take home.
- We have a 'duty of care' towards children's personal needs. If children are left in wet or soiled nappies/pull ups in the setting this may constitute neglect [and will be a disciplinary matter].
